## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on September 9, 2003 has been entered.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 11-17, 20-23 are rejected under 35 U.S.C. 103(a) as being unpatentable over 6,140,329 (Daugan) for the reasons given in Paper No. 5. Daugan (col. 1, compound (I), col. 3, lines 48-65, col. 5, lines 60-65, col. 7, Ex. 1, Compound A, claims 16-17) disclose the instant compound and a method of using it to treat sexual dysfunction. It further discloses oral administration and a dosage within the recited range.

Applicants continue to argue that the instant compound has reduced side effects when compared with Viagra. This is not persuasive, since the two compounds are structurally different.

Applicants continue to argue that Daugan fails to suggest the instant low dose, since the examples are to 50 mg. This is not persuasive. Daugan discloses (column 3, lines 50-52) a dose ranging from 0.5-800 mg, which includes the instant 1-20 mg. In the absence of a showing of unexpected results comparing the disclosed 50 mg dose of Daugan with upper dosage range of 20 mg of instant claim 13 no unobviousness is seen in the dosage range of the instant claims.

### ***Double Patenting***

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 11-17, 20-23 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claim 1-7 of U.S. Patent No. 6,451,807. Although the conflicting claims are not identical, they are not patentably distinct from each other because the comprising language of the instant claims would include treating sexual dysfunction in a patient suffering from a retinal disease or the heart conditions recited in claim 4 of '807. Furthermore, claim 7 of '807 teaches the compound of the instant method.
